Canon Pixma iX6820 Setup Guidance

Canon PIXMA iX6820 is a wireless Inkjet printer that comes with features like auto sheet feeder, auto power on/off, AirPrint, and Google Cloud printing capability. The Basic **Canon Pixma iX6820 setup** process is quite simple and can be done by following the below-mentioned steps.

1. Unpack the printer and take out the printer supplies such as power cord, setup CD, user guide, and ink cartridges.
2. Remove the orange protective tapes and covers from the printer.
3. Connect the Canon printer to the wall outlet using the printer's power cord.
4. Press the Power button until the power indicator light turns into white.
5. Open the ink access door and unpack the ink cartridge.

6. Remove the orange tape from the ink cartridges and insert them into the printer one by one.
7. Avoid touching the ink nozzles to prevent poor print quality in the future.
8. Next, extend the paper support and pull out the paper output tray.
9. Load some plain paper into the paper input tray and adjust with paper guides.
10. Install the printer software on your computer using the setup CD received along with the *Canon Pixma iX6820 setup*.
11. After installing the printer software, verify the printer function by printing a configuration or status sheet.
12. For mobile printing, use the Google Cloud Print or AirPrint feature.

Canon Pixma iX6820 Driver Download

You can download the driver for the ***Canon PIXMA iX6820 printer*** by merely clicking the Driver Download button available on this screen. Otherwise, download it from the official Canon site using the below-mentioned steps.

1. Connect your computer to the Internet.
2. Make sure you have removed the previously installed `Canon printer software` if any.
3. Open the default browser and navigate to the official Canon site.

4. Enter your Canon printer model number in the search panel and click the Go button.
5. Click the Drivers & Downloads tab and choose your desired OS from the Operating System drop-down menu.

Canon Pixma Ix6820 Manual Download

The Canon Pixma iX6820 setup manual is supplied along with the printer during the first-time purchase. If the manual is damaged or lost, it can be downloaded by clicking the Manual Download button available on this screen. If you wish to download it from the official Canon site, follow the steps mentioned below.

1. On your computer, open the default browser and go to the official site.
2. Type Canon PIXMA iX6820 in the search panel and click the Go button.
3. On the support page, click the Manuals tab and choose your language from the drop-down menu.
4. Choose your desired manual from the displayed list and click the View button.
5. You should have installed the PDF reader to open the manual because it is available only as a PDF file.
